We've been at the heart of the largest single regeneration project in London from the very beginning. Covering over 80 hectares of land to the south of the O2 Arena, the new neighbourhood will deliver over 12,500 new homes, together with commercial floorspace, film and media studios, new schools, a health centre, new parkland, visitor facilities and an integrated transport hub. We're now working on the zonal masterplans and reserved matters applications.

Helping a huge mixed-use redevelopment take off

Woodford Aerodrome, Stockport

When the aerodrome at Woodford closed after 80 years, it was a fantastic opportunity to redevelop this Green Belt site to create a high quality Garden Village. The development will provide 920 homes, a primary school, extra care accommodation, business units, shops and a pub.

We led the proposal through the planning process, including local consultation and the co-ordination of the Environmental Statement, and remain involved in delivering this outstanding project.
